The Church on the Hill by Ross Beer March 20/26

St Augustine's is just up on the hill

I've gone there for years and always will.

Memories of childhood go flashing by.

This was a new church built up to the sky.

Baby Boomer's packed in the pews

People from all over Leaside got the news.

A wonderful place both then and now

80 years has past - Holy cow!

Today we are smaller but mightier than ever.

We take on huge projects whatever the endeavor.

Wonderful, diverse, a place for all

Our church is now happy standing tall.

Learning new cultures is just what it needs.

So, here's to the next 20 years and see how it reads.

With a new school tenant coming we're sure to be fond.

Let's raise a glass and form a new bond.

A great church and friendships that will forever last.... Our Canadian home for the future and past.
